GUNS & ABORTION- My thoughts by Sheila Jaffe

How about if we treat every young man who wants to buy a gun like every woman who wants to get an abortion.

- Mandatory 48 hour waiting period
- Parental permission
- Require a note from the doctor proving he understands & is competent to purchase a firearm.
- View a video about the effects of gun violence
- An ultrasound wand up the butt (just because).

Let's close down all but one gun shop in every state and make him travel hundreds of miles.

Take time off work and stay overnight in a strange town to get a gun.

Make him walk through a gauntlet of people holding photos of loved ones who were shot to death, people who call him a murderer and beg him not to buy a gun.

It makes more sense to do this with young men and guns than with women and health care, RIGHT?

While legislators waste time on new restrictions on women's lives, they allow the use of guns for family violence and mass murder.
