Great music, inspiring speeches, and a call to action to Impeach Trump

President Trump poses irreparable harm to our nation and our planet.

Mr. Trump does not reflect the ideals of America or either political party

Mr. Trump places his own financial interests above the interests of America

We call upon all patriots to stand against Trump at this critical time in history

If we don't stand for something, we will fall for anything

"Our lives begin to end the day we are silent about things that matter."

(Martin Luther King)

"All that's necessary for the triumph of evil is for good [people] to do nothing."

(Edmund Burke)
