

I am Sophy Collins. I have been in CWPFPG for over 5 years now. My role is to mentor young girls and women on various areas. The positive impact of CWPFPG is great to society, and I am proud to be associated with CWPFPG.

I run mentorship programs in different areas, and this has boosted the morale of young girls. I teach women entrepreneurship. The challenge I have most is that these women do not have capital to start a business due to high rates of poverty in this area.
